

Mohamed Imran Ifadha

SOFTWARE ENGINEER | FULL-STACK DEVELOPMENT | AI-POWERED APPLICATIONS

✉ ifadhaimran04@gmail.com ☎ +971 56 482 3989 📍 Dubai, UAE 🔗 Website 🔗 LinkedIn 🐙 GitHub

PROFESSIONAL SUMMARY

Software Engineer currently pursuing an MSc in Data Science and Artificial Intelligence, with a First-Class BEng (Hons) in Software Engineering and over 2 years of professional experience developing enterprise-grade applications and intelligent software solutions.

Experienced across frontend development, backend engineering, database systems, API integration, cloud deployment, and machine learning applications. Proficient in React.js, Next.js, TypeScript, Node.js, Flask, ASP.NET, MVC, SQL databases, and modern development practices, including Docker, CI/CD, and cloud-based deployment platforms.

Passionate about building scalable web applications, integrating AI capabilities into software products, and delivering maintainable solutions that solve real-world business problems. Combines strong software engineering fundamentals with practical experience in machine learning, natural language processing, and intelligent application development.

PROFESSIONAL EXPERIENCE

Full-Stack Developer, VisualSoft (Pvt) Ltd

10/2023 – 12/2025

- Developed enterprise software solutions involving data processing, business automation, and system integration.
- Designed and implemented APIs and backend services supporting scalable business applications.
- Worked with structured data sources, database systems, and performance optimisation techniques.
- Applied software engineering best practices, including testing, version control, deployment, and maintainable architecture design.
- Collaborated with cross-functional teams throughout the software development lifecycle.
- Gained extensive experience building production-ready systems, strengthening the practical deployment of intelligent applications.

CORE COMPETENCIES

- Full-Stack Software Engineering
- Modern Web Application Development
- Frontend Development (React.js & Next.js)
- Backend Services & REST API Development
- Database Design & Query Optimization
- AI-Powered Application Development
- Machine Learning Integration
- Authentication & Security Implementation
- Cloud Deployment & DevOps Practices
- Software Architecture & System Design
- Performance Optimization & Debugging
- Agile Software Development

TECHNICAL SKILLS

Frontend Development: React.js | Next.js | TypeScript | JavaScript | HTML5 | CSS3 | Tailwind CSS

Backend Development: Python | Node.js | Express.js | C# | Flask | ASP.NET [↗](#) MVC | REST APIs

Artificial Intelligence: TensorFlow | PyTorch | Scikit-learn | NLP | Machine Learning

Databases: MySQL | SQLite | SQL Server | Supabase | MongoDB | SQLite | Entity Framework

Cloud & DevOps: Docker | CI/CD | Vercel

Tools & Platforms: Git | GitHub | VS Code | Antigravity | Jupyter Notebook | Google Colab | Postman | Figma

Development Practices: Object-Oriented Programming (OOP) | Database Design | Version Control | Software Testing | Clean Code Principles | Agile Development

PROJECTS

- GasByGas Online Gas Requesting & Delivery System,**

2025

React | React Native | Next.js | MySQL
 - Designed a multi-role delivery platform connecting customers, outlets, and head office.
 - Implemented OTP-based token verification and real-time stock updates.
 - Built responsive mobile-first system with API integration for secure delivery handling.
 - GitHub: GasByGas
- MealMinder AI-Based Dietary Management System,**

2024 – 2025

Python | Flask | TensorFlow | React.js | MySQL
 - Developed a computer vision-based dietary management system for food detection and nutritional estimation.
 - Built preprocessing pipelines for image normalization and feature extraction.
 - Integrated USDA nutritional dataset API for real-time macro and calorie breakdown.
 - Designed recommendation logic for users with diabetes and hypertension.
 - Deployed trained models via Flask REST API for real-time inference.
- DreamDay Wedding Planner Web Application,**

2025

C# | ASP.NET | MVC | MySQL
 - Developed a full-stack wedding event management system with role-based access for Admin, Users, and Vendors.
 - Implemented budget tracking, vendor bookings, guest list, and schedule management.
 - Built admin panel for monitoring activities and vendor approvals.
 - GitHub: DreamDay
- TravelMate AI-Powered Travel Chatbot,**

2025

Python | Flask | PyTorch | NLTK | SQLite
 - Built a conversational chatbot providing travel tips, itineraries, and recommendations.
 - Trained with a custom intent dataset for travel-related queries.
 - Implemented context-aware logic to maintain dialogue flow.
 - GitHub: TravelMate
- FinBuddy AI-Powered Banking Chatbot,**

2024

Python | Flask | PyTorch | NLTK | SQLite
 - Developed an intent classification model using PyTorch for banking-related queries.
 - Implemented NLP preprocessing pipeline including tokenization, stemming, and vectorization.
 - Designed retrainable model architecture enabling incremental intent updates.
 - Integrated structured SQLite knowledge base for efficient response retrieval.
- BookHaven Bookstore Management System,**

2025

C# | WinForms | Entity Framework | SQL Server
 - Developed a bookstore management desktop app with modules for inventory, suppliers, and sales.
 - Implemented role-based login with secure hashed credentials for Admin and Staff.
 - Generated reports in PDF/Excel using EPPlus and LINQ queries.
 - GitHub: BookHaven

FlaskBlog Blog Management System, Python Flask HTML CSS	2024
• Developed a lightweight blogging platform with CRUD operations. • Implemented user authentication, login, and error handling. • Designed a simple, user-friendly interface for individual bloggers. • GitHub: FlaskBlog	

EDUCATION

MSc in Data Science and Artificial Intelligence, <i>Middlesex University Dubai</i>	2025 – Present
BEng (Hons) in Software Engineering First Class Honours, <i>London Metropolitan University</i>	2024 – 2025
Higher National Diploma (HND) in Software Engineering, <i>Esoft Metro Campus, Sri Lanka</i>	10/2022 – 02/2024
Diploma in Information Technology, <i>Esoft Metro Campus, Sri Lanka</i>	2021 – 2022

AWARDS AND ACHIEVEMENTS

Most Outstanding Performance Award, BEng (Hons) in Software Engineering, <i>London Metropolitan University</i>	09/2025
Batch Top, Higher National Diploma (HND) in Software Engineering, <i>Pearson</i>	12/2023
